ABOUT SLK Software Services Pvt Ltd.

Tribute To SLK
SLK
The name "SLK" in SLK Group is inspired by Mr. Shantanurao Laxmanrao Kirloskar, the man who was instrumental behind the rapid growth of the Kirloskar Industries.

SLK Software Services was established in 2000 and specializes in providing full cycle IT solutions and services, which deliver significant savings to the customers.
Our services include:
Business Analysis and Consultancy
Application Re-engineering, Enhancements, and Maintenance
Independent Testing and Quality Assessment
Worldwide Remote Installation, Support, and Monitoring Services

With our offshore development centers in Bangalore (India), SLK Software is a customer-focused and employee-owned firm. Our in-depth understanding of various industry domains and a fully dedicated team of over 600 trained professionals enable us to provide innovative and end-to-end technology solutions and services.

Nurturing long-term partnerships has been the way of life at SLK and the company firmly believes that in the "Power of Partnership" lies the ability to identify more opportunities, increase individual strengths, and intensify commitments.

Our quality processes are benchmarked against international standards and our Information Security and Management Systems are certified at ISO 27001:2005.
